Usage of the Bible

It is important that the Bible be taught and used each week. There are many types of Bibles available today, as such, to avoid confusion and strife, and to encourage the use of God's Word in a systematic and proper way, Open Door Baptist Church uses the King James Version (KJV). Please use the KJV Bible in every class setting, whether it is read from or quoted from memory. If your curriculum or notes reference a different version that will be passed out to students or others, provide a handout and/or replace the other version's text with the words found in the KJV.
